### **Pupil premium strategy statement**

This statement details our school's use of pupil premium (and recovery premium for the 2022 to 2023 academic year) funding to help improve the attainment of our disadvantaged pupils.

It outlines our pupil premium strategy, how we intend to spend the funding in this academic year and the effect that last year's spending of pupil premium had within our school.

#### **School overview**

| Detail  | Data                           |
|---|--------------------------------|
| School name   | Stickney C of E Primary School |
| Number of pupils in school  | 132                            |
| Proportion (%) of pupil premium eligible pupils                         | 28%                            |
| Academic year/years that our current pupil premium strategy plan covers | 2021/2022 to 2024/2025         |
| Date this statement was published                                       | December 2022                  |
| Date on which it will be reviewed                                       | July 2023                      |
| Statement authorised by   | Rachael Cotton                 |

#### **Funding overview**

| Detail  | Amount  |
|---|---------|
| Pupil premium funding allocation this academic year   | £51,245 |
| Recovery premium funding allocation this academic year  | £ 5,800 |
| Pupil premium funding carried forward from previous years (enter £0 if not applicable)  | £0      |
| Total budget for this academic year   | £57,045 |
| If your school is an academy in a trust that pools this funding, state the amount available to your school this academic year |         |

## Part A: Pupil premium strategy plan

#### **Statement of intent**

At Stickney Church of England Primary School we have high expectations for all pupils in our school, and believe that with high quality teaching, effective engagement with parents and a personalised approach to meet children's individual needs, every child can fulfil their individual potential, both academically and socially. In order to do this, we engage in a range of strategies to issue challenge at an appropriate level and provide support to overcome barriers to learning. We provide a rich and varied curriculum, which makes an exceptional contribution to pupils' outcomes so that children are engaged and achieve well.

Key interventions and approaches are adopted on a whole school level and are not only restricted to pupils eligible for the Pupil Premium. Some specific interventions and school initiatives have been made possible by allocating the Pupil Premium and/or catch-up funding. Our strategies target the individual needs of our children in receipt of Pupil Premium, with the main aim being that these children do as well as their peers with similar starting points, and who are not eligible for the Pupil Premium.

School leaders across our federation are committed to ensuring that all of our disadvantaged pupils, including those who are more able receive teaching which is at least good in every lesson and that disadvantaged children who have 'fallen behind' their peers with similar starting points, receive frequent intervention and daily support.

Funding is allocated within the school budget by each financial year. The budget enables us to plan our intervention and support programme year on year, based on the needs of the current cohort of children in receipt of Pupil Premium funding. When making decisions about allocating our Pupil Premium Funding, we have analysed our data and made use of a range of research, such as the Education Endowment Foundation and The Sutton Trust.

## Challenges

This details the key challenges to achievement that we have identified among our disadvantaged pupils.

| Challenge<br>number | Detail of challenge   |
|---------------------|---|
| 1                   | Assessments, observations, and discussions with pupils indicate<br>underdeveloped oral language skills and vocabulary gaps among many<br>disadvantaged pupils. These are evident from Reception through to KS2<br>and in general, are more prevalent among our disadvantaged pupils<br>than their peers.  |
| 2                   | Our assessments, observations and discussions with pupils and families<br>indicate that the education and wellbeing of many of our disadvantaged<br>pupils continues to be affected by the impact of the partial school<br>closures during the COVID-19 pandemic, and to a greater extent than<br>for other pupils. These findings are supported by national studies. |
|                     | This has resulted in significant knowledge gaps leading to pupils falling further behind age-related expectations, especially in writing.   |
| 3                   | Our assessments (including wellbeing survey), observations and<br>discussions with pupils and families have identified social and emotional<br>issues for many pupils, notably due to weaker emotional literacy and<br>social deficit caused by isolation during lockdown. These challenges<br>particularly affect disadvantaged pupils, including their attainment.  |
|                     | Teacher referrals for support remain relatively high. 15% of pupils (35% of whom are disadvantaged) currently require additional support with social and emotional needs, with 85% (30% of whom are disadvantaged) receiving small group interventions.   |
| 4                   | Our attendance data indicates that as a group, attendance among disadvantaged pupils has been up to 6.25% lower than for non-disadvantaged pupils over the last two years.  |
|                     | 22–29% of disadvantaged pupils have been 'persistently absent'<br>compared to 12-17% of their peers during that period. Our assessments<br>and observations indicate that absenteeism is negatively impacting<br>disadvantaged pupils' progress.  |

#### Intended outcomes

This explains the outcomes we are aiming for **by the end of our current strategy plan**, and how we will measure whether they have been achieved.

| Intended outcome  | Success criteria  |
|---|---|
| Improved oral language skills and vocabulary among disadvantaged pupils                     | Assessments and observations indicate<br>significantly improved oral language<br>among disadvantaged pupils. This is<br>evident when triangulated with other<br>sources of evidence, including<br>engagement in lessons, book scrutiny<br>and ongoing formative assessment.   |
| Improved writing attainment amongst disadvantaged pupils.                                   | KS2 writing outcomes in 2024/25 show that more than 70% of disadvantaged pupils met the expected standard.  |
| To achieve and sustain improved wellbeing<br>for all pupils in our school, particularly our | Sustained high levels of wellbeing by 2024/25 demonstrated by:  |
| disadvantaged pupils.   | <ul> <li>qualitative data from student voice,<br/>student and parent surveys and<br/>teacher observations</li> </ul>  |
|   | <ul> <li>a significant increase in participation<br/>in enrichment activities, particularly<br/>among disadvantaged pupils.</li> </ul>  |
| To achieve and sustain improved attendance for all pupils, particularly our                 | Sustained high attendance by 2024/25 demonstrated by:   |
| disadvantaged pupils.   | <ul> <li>the attendance gap between<br/>disadvantaged pupils and their non-<br/>disadvantaged peers being reduced<br/>by 5%.</li> <li>the percentage of all pupils who are<br/>persistently absent being below 10%<br/>and the figure among disadvantaged<br/>pupils being no more than 5% lower<br/>than their peers.</li> </ul> |

#### Activity in this academic year

This details how we intend to spend our pupil premium (and recovery premium funding) **this academic year** to address the challenges listed above.

#### **Teaching (for example, CPD, recruitment and retention)**

Budgeted cost: £ 19,015

|--|---|---------|
| Facilitating school-led<br>tutoring for pupils<br>whose education has<br>been most impacted<br>by the pandemic. A<br>significant proportion<br>of the pupils who<br>receive tutoring will be<br>disadvantaged,<br>including those who<br>are high attainers. | Tuition targeted at specific needs<br>and knowledge gaps can be an<br>effective method to support low<br>attaining pupils or those falling<br>behind, both one-to-one:<br><u>One to one tuition   EEF<br/>(educationendowmentfoundation.org</u><br>.uk)<br>And in small groups:<br><u>Small group tuition   Toolkit Strand  </u><br><u>Education Endowment Foundation  </u><br><u>EEF</u> | 1, 2, 3 |

## Wider strategies (for example, related to attendance, behaviour, wellbeing)

Budgeted cost: £ 7,870

| Activity   | Evidence that supports this approach   | Challenge<br>number(s)<br>addressed |
|--|--|-------------------------------------|
| Curriculum focus on,<br>and teaching assistant<br>time allocated to, the<br>social and emotional<br>learning and wellbeing<br>of pupils. | Evidence from the EEF's Teaching<br>and Learning Toolkit suggests that<br>effective social and emotional<br>learning can lead to learning gains of<br>+4 months over the course of a year. | 3                                   |
| Embedding principles<br>of good practice set<br>out in the DfE's<br>Improving School<br>Attendance advice.                               | The DfE guidance has been informed<br>by engagement with schools that<br>have significantly reduced levels of<br>absence and persistent absence.   | 4                                   |
| This will involve<br>training and release<br>time for staff to<br>develop and<br>implement new<br>procedures and                         |  |                                     |

| appointing<br>attendance/support<br>officers to improve<br>attendance. |   |     |
|--|---|-----|
| Contingency fund for acute issues.                                     | Based on our experiences and those<br>of similar schools to ours, we have<br>identified a need to set a small<br>amount of funding aside to respond<br>quickly to needs that have not yet<br>been identified. | All |

## Total budgeted cost: £ 57,045

# Part B: Review of outcomes in the previous academic year

#### Pupil premium strategy outcomes

This details the impact that our pupil premium activity had on pupils in the 2021 to 2022 academic year.

We have analysed the performance of our school's disadvantaged pupils during the 2021/22 academic year using key stage 1 and 2 performance data, phonics check results and our own internal assessments.

Schools are not required to publish their 2022 key stage 2 results as DfE is not publishing this data. This is because statutory assessments returned for the first time since 2019, without adaptations, after disruption caused by the pandemic. This is a transitional arrangement for one year only, and DfE plans to publish key stage 2 school performance data for 2023.

DfE has shared our school's 2022 performance data with us, to help us better understand the impact of the pandemic on our pupils and how this varies between different groups of pupils. COVID-19 had a significant impact on the education system and this disruption affected schools and pupils differently, and because of this, it is more difficult to interpret why the results are as they are using the data alone.

To help us gauge the performance of our disadvantaged pupils we compared our results to those for disadvantaged and non-disadvantaged pupils at a national and regional level (although these comparisons are to be considered with caution given the caveats stated above). We also looked at these comparisons using pre-pandemic scores for 2019, in order to assess how the performance of our disadvantaged pupils has changed during this period.

Data from tests and assessments suggest that, despite some strong individual performances, the progress and attainment of the school's disadvantaged pupils in 2021/22 was below our expectations. Our analysis suggests that the reason for this is primarily the ongoing impact of COVID-19, although we also identified that some of the approaches we used to boost outcomes for disadvantaged pupils had less impact than anticipated.

The attainment gap between our disadvantaged pupils and non-disadvantaged pupils has grown since the start of the pandemic. This is reflective of national figures and demonstrates the additional impact of COVID-19 on disadvantaged pupils.

Absence among disadvantaged pupils was 1% higher than their peers in 2021/22 and persistent absence 5% higher. We recognise this gap is too large which is why raising the attendance of our disadvantaged pupils is a focus of our current plan.

Our observations and assessments demonstrated that pupil behaviour improved last year, but challenges in relation to wellbeing and mental health remain significantly higher than before the pandemic. The impact on disadvantaged pupils has been particularly acute.

These results mean that we are not at present on course to achieve the outcomes that we set out to achieve by 2024/25, as stated in the Intended Outcomes section above. We have reviewed our strategy plan and made changes to how we intend to use some of our budget this academic year, as set out in the Activity in This Academic Year section above. The Further Information section below provides more details about our planning, implementation, and evaluation processes.

#### **Externally provided programmes**

Please include the names of any non-DfE programmes **that you purchased in the previous academic year**. This will help the Department for Education identify which ones are popular in England

| Programme                              | Provider                 |
|--|--------------------------|
